The image shows a maze puzzle on a white background. There are five starting points, each with a small icon in a colored square: a doll (red), a stroller (blue), a pencil holder (green), a toy car (yellow), and a toy shelf (purple). The maze is formed by black lines. The paths are color-coded: red for the doll, blue for the stroller, green for the pencil holder, yellow for the toy car, and purple for the toy shelf. The paths lead from the starting points to the destinations: the doll's path leads to the top left, the stroller's path leads to the top right, the pencil holder's path leads to the middle right, the toy car's path leads to the bottom right, and the toy shelf's path leads to the bottom left.
