

## Pollination

### Worksheet 1

1. Everyone knows that bees make honey. What is honey, how do they make it and why is it good for us ? Go to

<http://www.buzzaboutbees.net/how-do-bees-make-honey.html>

<http://www.beesathome.com/health-benefits-of-honey>

to find out.

2. Go to <http://www.youtube.com/watch?v=xHkq1edcbk4> and watch a short film about the pollination, what other animals can you see there apart from the bees?

3. Honey is not the only benefit we get from bees. They produce many of our favourite foods. Go to <http://www.nrdc.org/wildlife/animals/files/bees.pdf> and read about pollination .

Which animals are also pollinators? .....

What food do we have thanks to pollinators? .....

Why do we need bees ? .....

4. As you found out bees are extremely important. Unfortunately bees are dying out, the process is called Colony Collapse Disorder. Find out why we have to save our bees and how we can do that here:
