

A reason for seasons

Worksheet 1

1. What is your favourite season of the year? Why? Can you imagine living somewhere where it is always hot or very cold? Do you like the changes in the seasons?
2. What is the difference between the earth rotation and revolution?

What is the earth's axis?

What is the earth's axis tilt?

3. Go online and watch a video about the seasons:
<http://www.youtube.com/watch?v=wwdB22opre0>

In pairs sum up what you have just learnt.

4. Read the information about seasons and answer these questions:
 - What are Solstices? How many are there?
 - What are Equinoxes? How many are there?
 - Give three main reasons for the seasons.

5. Many people celebrate summer solstice. Read about Litha, Midsummer and Stonehenge.
